

# WHAT TYPES OF SEND ARE PROVIDED FOR?

We are an inclusive school that aims to meet the needs of ALL learners. A pupil has SEND where their learning difficulty or disability calls for special educational provision; this is provision different from or additional to that which is normally available to pupils of the same age. The types of SEND that are provided for fall under 4 broad areas:

- **Communication and interaction:** Children with speech, language and communication needs have difficulty in communicating with others. This may be because they have difficulty saying what they want to, understanding what is being said to them or they do not understand or use social rules of communication.
- **Cognition and learning:** Learning difficulties covers a wide range of needs, including moderate learning difficulties, severe learning difficulties, through to profound and multiple learning difficulties where children are likely to need support in all areas of the curriculum and have associated difficulties with mobility and communication. Specific learning difficulties, affect one or more specific aspects of learning - this encompasses a range of conditions such as significant and persistent literacy difficulties, processing and memory difficulties.
- **Social, emotional and mental health difficulties:** Children may experience a wide range of social and emotional difficulties which manifest themselves in many ways. These may include becoming withdrawn or isolated, as well as displaying challenging, disruptive or disturbing behaviour. These behaviours may reflect underlying mental health difficulties.
- **Sensory and/or physical needs:** Some children require special educational provision because they have a disability which prevents or hinders them from making use of the educational facilities generally provided. These difficulties can be age related and may fluctuate over time. Many children and young people with vision impairment, hearing impairment or a multi-sensory impairment will require specialist support.
